BURSARY EM ENGINEER

EM Software & Systems
Technopark, Stellenbosch, South Africa

COMPANY INFORMATION
The EMSS Group (www.emss.co.za), based in Technopark, Stellenbosch, consists of a number of dynamic and rapidly-growing companies active in the field of electromagnetic engineering. The flagship product of EMSS is the state-of-the-art electromagnetic simulation and visualization package, FEKO (www.feko.info) which is used extensively in the automotive and aeronautical industries with more than 300 international customers such as NASA, Boeing, DaimlerChrysler etc.

Distributors of the product are located in the USA, EU, Japan, South Korea, China, Taiwan, India and Israel. A number of other software products, also aimed at the international market, are under development at EMSS (www.emsixus.com).

The EMSS Group currently employs 57 engineers/software developers, 18 technical staff and a sales, admin and support staff of 16.

BURSARY INFORMATION
Overview:
A dynamic engineering environment exists at EMSS and the company is continuously on the lookout for talented and motivated EM engineers to form part of the development, support and marketing teams. In an effort to attract top talent, EMSS has decided to sponsor a competitively valued post-graduate bursary for a maximum of two years. Students commencing their Masters Degree in 2009 in the field of EM engineering are invited to apply.

Criteria:
◊ Bachelors Degree in E & E Engineering (2008)
◊ Exceptional academic record
◊ Interest in EM engineering as a career

Bursary conditions:
◊ EMSS will liaise with the successful candidate and his/her post-graduate leader to choose a project title of interest to both the candidate and EMSS
◊ Minimum of 5 weeks per year experiential work at EMSS offices in Stellenbosch
◊ Contractual commitment to work at EMSS after completion of the degree for a period of at least two years

Interviews:
Will be conducted by a group of experienced engineering leaders at EMSS

APPLICATION DETAILS
Closing date for CV submission:
31 October 2008
